- Outdoor furniture
- Log home exterior & interior  
woodwork

*Products include:*

### WeatherSeal™

#### Premium Exterior Wood Stain & Sealant

WeatherSeal is a thick & easy to apply wood stain protector used over ALL types of outdoor wood surfaces where a natural wood appearance is desired.

### PolySeal™

#### Interior Wall & Woodwork Protection

PolySeal is a water-based clear wood varnish used on interior walls, woodwork & floors.

## WeatherSeal™

### A thick & easy to apply wood stain protector

Get the protection you need with WeatherSeal's incredibly thick consistency that spreads creamy smooth & soaks into the wood like a regular water-thin stain. It's not your average stain.

#### Features & Benefits

- **THICK**
- Easy-to-apply in overhead, hard-to-reach areas
- Less drip, less mess
- Can be sprayed (airless sprayer)
- 2 coats minimum (3 coats ideal)
- Absorbs & dries to a rich, natural wood appearance
- Can re-coat after 6-8 hours
- No pigment settling
- No constant stirring
- Available in variety of colors
- Economical
- Re-apply every 3-6 Years
- VOC - 250 grams per liter

## PolySeal™

### A water-based clear wood varnish

#### Features & Benefits

- Thicker & fuller with higher level of solids
- Easy-to-apply
- Less drip, less mess
- Low fumes
- Dries fast - 3 to 4 coats in a day
- Seals the wood pores & helps maintain an allergy free environment
- 2 - 3 coats are recommended for best performance
- Scrub & mar resistant
- Adds depth & clarity to the wood grain
- Available in Crystal, Amber, Amish Pine, Light Timber & Maple transparencies
- Can be used on hardwood & hard pine floors
